PRE-QUALIFIED FOR Civil engineering
Environmental engineering

STATEMENT BY FIRM Golder Associates is a premier global group of consulting companies, specializing in geotechnical engineering and environmental science. We have more than 1,200 professionals in over 50 offices across the US, including New England offices in ME, NH and MA. Our geotechnical, environmental, design and construction expertise includes projects associated with transportation, land development, commercial structures (office buildings, medical facilities, shopping centers), schools, solid waste, mining, environmental compliance and energy resources. In Northern New England, Golder has on-call Consultant Agreements for geotechnical & environmental services with the Maine DOT, NHDOT & Vermont Agency of Transportation (VTRANS).
